SECURITY GRAB BAR	DATE 2/2010	MODEL M8100 SERIES	SHEET NO. 20-01
-------------------	----------------	--------------------------	--------------------

MODEL M8100 SERIES SECURITY GRAB BAR

MATERIALS: Stainless steel Type 304, 18 gauge tubing available in 1 1/4" or 1 1/2", No. 4 satin finish. 12 gauge sheet extends from underside of the grab bar to the wall, welded on three sides. Tubing is welded to round 8 gauge flanges. One-way screws are provided.

FEATURES: Security grab bars are designed to prevent suicides and therefore are recommended for prisons and psychiatric facilities. The grab bars are theft-resistant so they cannot be removed from the wall easily and then used as a weapon. Standard length is 24".

INSTALLATION: Surface mount base flange to wall with screws provided by the manufacturer. In-wall backing is recommended, consult local codes to assure compliance.

GUARANTEE: Meek Mirrors gives a one year guarantee on all of their products against defects in workmanship and material.

SPECIFICATION: Grab bar shall be Model M8100 as distributed by Meek Mirrors - Fort Smith, Arkansas. Above data is applicable to productions as of the date of this technical data sheet. The manufacturer reserves the right to make changes in design without formal notice.
