

INSTALLATION: Insure electric power is turned off. Using mounting holes, attach wall panel to wall. Installer is responsible for determining and using the appropriate fasteners to fasten mirror to wall. After installing wall-mounted panel, a licensed electrician should wire the driver to a 100 to 240V source. Now hang the mirror onto the wall panel. Both upper and lower hangers must be inserted into mounting slots. Use stainless Allen screw to lock mirror into place. The mirror must be locked into place to complete installation.

Product made in the USA.
